Measure, Appointment or
Topic: LC 2

I am opposed to Any new taxes and fees, I am a 75 yr old life long Oregonian, living on a fixed retirement income, I have managed to support myself and family without any financial assistance from anyone, the proposed increases in taxes and fees will truly hurt my financial situation, it is becoming very difficult for people like me to live here anymore, when it should be the opposite, taxes, insurance, utilities, food, fuel, everything is out of control, you people campaigned that you would improve our lives here in Oregon, well you certainly haven't improved anything that I am aware of!
