Opposed! PLEASE - no more taxes and no more increases in fees. Just manage the money we already give you better. Enough is enough! Find where our money is being wasted and fix the waste problems. Those of us with a fixed income can not afford you taking more of our money. This has got to STOP and it has to stop now! If you can't work with the money you already have from us then YOU have a problem and asking us to give more is not the correct answer! Learn to live within your means - just like we have to do!

Thank you.
