NO MORE TAXES!!!!!! We cannot afford the taxes that have been imposed on us now. Our governor was quoted that she could not understand why people are leaving the state in record amounts and that there would be a study using the gas tax increase to understand why. I can tell you why and it won't cost one dime- PEOPLE CANT AFFORD OUR STATE!

This special session is a temper tantrum by the governor. The people have said no and she just keeps pushing forward with one more bad idea to the next.

In our household we manage our money and live with in our means which is becoming more and more difficult because of the horrendous tax on everything in Oregon. We the people are not you cash cows- you need to use money you already have- maybe quit paying for illegals and DEI crap and use that money to fund the things that are actually needed.

NO MORE TAXES
