I am a very concerned lifetime citizen of Oregon, Raising taxes will just hurt Oregonians more, the cost of living is out of hand now, just look at the price it cost to feed a family. I work overtime every week just to keep my head above water now and The Governor wants more of my hard earned money for what? You say it is for ODOT? Which I do not believe, you have plenty of our money already. The needless spending needs to end, the Sanctuary State needs to end and Governor Kotex is letting federal funds slip away because of it. 80% of Oregonian's do not want to pay more taxes. Remember elected politicians work for the people, please listen to them. Thank you
