I am against these extreme tax increases. I was told that it would “only” cost the average household about \$4 to \$5/month. Lies. Just the gas tax increase alone will cost me \$15/mo. I’m not even going to calculate the rest. I say NO. I say that just like every single household in Oregon, the state must be required to cut out the stupid spending and stop being allowed to give Oregon taxpayer money away to causes that only benefit the few. We said NO!
