Measure, Appointment or Topic:	LC 2

Theft by tax.

That's what this is. For, Miss Kotek, to implement horrific taxes on We the people of Oregon, is unconscionable.

We can't afford the taxes ,and other costs aligned with them, as it is, and you want to add more.

Get rid of sanctuary state status, stop giving illegal people preferred treatment, stop regulating businesses to death, thereby forcing them to take their business out of state, with all their money and tax dollars.

What happens when you finally tax us to death, and you have no more of our money to spend.

You need to stop, and get some common sense, because the rate you are going, is killing us all.
