No more Taxes for Oregon Citizens...

How about taxing Washington Residents who by the thousands & thousands cross over to use our roads. Tax them!

I would like it to be known that I am tired of the over taxation of Oregon citizens. I do not want this bill passed, Oregonians already pay too much in taxes. You need to review the taxes already collected, find where there is waste and reallocate the funds to where they are most needed. The over taxation and wasteful spending of our tax dollars needs to STOP.

Living in North Portland, I see hundreds if not thousands of Washington vehicles in Portland everyday they come from Vancouver to work and shop to avoid paying state taxes. Those vehicles cause wear and tear on the our streets and highways. If there was a toll fee to come into the state this would generate the much needed funding to ODOT.
