Funding

Measure, Appointment or
Topic: LC 2

As a long- time Oregonian and a senior, i am truly distressed at the proposed increases. I'm more than aware of how our tax and fee dollars are actually being used and am amazed at how these funds are scattered around like pool balls on a billiard table. I'm almost more embarrassed to admit that i voted for you than admit that the state is becoming a joke. Let's spend millions of dollars on issues that not only affect our ability to afford a decent life but elevate non- Oregonians. Not good and I'm leaning right... all because of your decision making ability. Or lack thereof perhaps. Why don't you just about it's YOUR agenda instead of the citizens of the state.
