I OPPOSE THIS TAX INCREASE! Normal Oregonians will only be hurt by this tax increase. The legislature needs to reallocate the tax revenue instead of adding burden to the already heavy tax's we pay in our state. We've also already seen tax increases and they have not fixed anything. Our school system is crumbling, with some of the lowest scores in the country, our roads are terrible because you pay executives at ODOT before you pay the guys that actually do the work and our energy costs are sky high because you choose inefficient solutions like wind energy and again pay PGE executives bigger salaries instead of keeping costs low. You work for the people of Oregon, we don't work for you. You need to be making it easier for us to live here, and easier for business to be done here so we can afford to live here and earn good wages. Stop listening to the few who line your pockets, do what's best for the bulk of your constituents, you owe it to us! Or you WILL be voted out.
