Funding

Measure, Appointment or  
Topic: LC 2

Governor Kotek's Transportation Package puts the burden on the tax payers to cover the failure of our elected officials to balance the budget and stop frivolous spending. The Oregon Constitution requires a 3/5ths vote to raise taxes, and if this legislation passes it will sidestep this process allowing unelected officials to raise our taxes without any input from the citizens of this state.

I strongly oppose Governor Koteck's Transportation Package.
