Funding

Measure, Appointment or
Topic: LC 2

On behalf of myself and my family I object to this bill.

We are on a fixed income and can barely afford food, housing and transportation now. Any further taxes or rate hikes would cause us great hardship.

I believe these hikes would not be necessary if the state would manage the money they already have and stay on a budget as the tax payers have to do. We do not have any ability to pull money from any other sources.

It is not fair that you are putting us in financial hardship because you won't follow federal regulations. I believe you are putting illegals before Oregon citizens.

Again I strongly disagree with this bill!!
