It's honestly quite baffling as to why the governor refuses to listen to the overwhelming majority of Oregonians who have already said we do not support any sort of tax think to pay for ODOT's accounting negligence, but here we are. Until ODOT can pass an audit by an independent 3rd party I am not in favor of giving them any additional tax revenue. There are plenty of fiscally sound alternative plans to the governor's proposal and we need to explore those options before any decision about ODOT can be made.
