Measure, Appointment or
Topic: LC 2

Greetings:

You are meeting today, to continue where you left off at the end of the general session - to figure out a way to get this compilation of looser tax bills over the finish line.

Have a suggestion - take the pulse of your constituents. You do check back and consult with a cross-section of your district after they elected you??

If so, I'm sure they are not wanting MORE TAXES!

The pulse of the voters is indicating, in this work and financial climate; they are tapped out!!

So don't reward inefficiency of the beauracracy, ODOT in particular, for their lack of direction and proper oversight.
