I was born and raised here in Oregon I have lived here almost 58yrs. I am 100% AGAINST what Gov Kotek is trying to do with this ODOT/gas tax bailout! Learn how to live within your budget learn that sometimes you don't always get your way be a damn grown up. You gave no right to write in this emergency bill you so badly want, that gas tax can never be voted on again. YOU and all your poor choice politicians are the reason that when my husband and I retire in a few years we will leave Oregon to enjoy another state that actually makes it easy to live within our means. Quick taxing the shit out of the people you represent... so what if ODOT doesn't get their money I live within mine.. you and yours can and should too
