

Tax and spend, tax and spend is all democrats know how to do.

This is ridiculous! We are one of the highest taxed states in the nation. Everything goes into “the general fund” and is put towards special interests and pet projects and the real public works somehow never seem to get completed.

We. Are. Done.

This is nothing more than a money laundering tax skeme to create more wealth for Kotek and her cronies. This is a poorly veiled attempt at land grab. This will do NOTHING to stimulate growth, will drive businesses and tax payets out while funneling momey into the pockets of liars and thieves.

We saw it under Brown and she got out when she got rich enough.

Identity politicians have got to be stopped, they are for themselves only and represent NO one in this state, support lawlessness, chaos, drug addicts and lowlifes that contribute nothing to society.
