Committee: Joint Interim Committee On Transportation
Funding

Measure, Appointment or
Topic: LC 2

I am not in favor of any increases as outlined. Oregon is taxing it citizens into submission and holding us hostage with cost of living! Stay within your budget! Use transportation funds as intended. Public transportation is not necessary as no one uses it when the numbers are calculated. There is so much waste of high paid government officials above our blue collar transportation department. The funds are there, they are just being mis-prioritized.

Leave within your means Oregon! No increases.
