Topic: LC 2

I have been a citizen of Oregon for 26 years. My husband and I retired here because of the beauty and safety and affordability of the Aloha area. Now with taxes being steadily increased we are being turned into impoverished citizens who must pay for those who are illegal aliens and receiving benefits without having to work for them. Please do not increase our taxes. Instead tighten the belts of government just as the citizens you are accountable to have been required to do. Perhaps when you reach your eighth decade of life, you will still be able to live in this beautiful bit of God's creation.
