As a retired person living on SS, I cannot afford to pay this state any more taxes. I just renewed my care tags at a cost of \$200! Just for tags! Gasoline is now over \$4 per gallon, and you want to add more road tax? What happened to all the road improvement funds we already paid? You are forcing a lot of us long time Oregon residents to move out of this blue state. How much of our tax money was used for other things like supporting illegals and homeless bums too lazy to work? I was born here, and it makes me sick that you want more of our hard-earned money. You even want to take part of our Kicker money, which is ours, NOT YOURS!! i I have increasing doctor bills to pay, and I cannot afford any more taxes. News Flash, people work hard for their money and it's not for the state to take!! They say Oregon is now one of the worst states to do business in, not to mention bad schools. When will it end?
