Topic:

I am a born and raised Oregonian, I have family history dating back to the 1800's, and I still reside in Oregon as I've always felt there was no other state better than Oregon to live, work and raise a family. But with this outlandish tax proposal it will make residing here even more difficult for my husband who is a Vietnam Veteran and with our limited fixed income. We have to live within our means, Ms Kotek needs to balance a budget within Oregonians means. People are leaving this state, businesses are closing and leaving as well, make Oregon livable and affordable again for the ones choosing to stay. Thank you.
