Topic: LC 2

I firmly oppose any tax increases. I'm sure any of you would not run your house hold budget the way you run our money. I'm ashamed, as a life long Oregonian , of our legislators. You all have come up with some really bad ideas that have hurt Oregon and you won't even acknowledge it. You blame everyone else and don't take accountability for your actions. You are a bad example to the public. Start looking and listening to what is good for Oregon. Take the political blinders off and look how you've destroyed our state. Please!!!
