Funding

Measure, Appointment or
Topic: LC 2

We object to additional taxes for gasoline, increased fees for titles, increased fees for car registration renewals, and for increased payroll taxes. We also object to the governor being allowed to hire and fire the head of ODOT. We also object to allowing ODOT to increase gas taxes without of vote of the people or the legislature. We believe increases in taxes or fees should be put to a vote of the people because we are the ones paying those taxes. Our taxes are already to high, and retired citizens and those on fixed income need relief from the tax and unwisely spend Democrats.
