Absolutely will break this family. I have for months now, since my ex left (retired tier one state employee)for South Dakota, been researching how to leave this state, been here since 1970.

I am happy to say my father isn't here to see how this once beautiful state became so shameful and dirty.

Yes, I am glad he can't see it not glad he has passed.

Your proposals will drive residents to pack it up. Yet this seems not to bother you in the least. I see no concern from you what so ever. None. At this point in time. Tina Kotex has become infamous. As the most uncaring WOMAN governor ever to be placed in charge of hard working folks. Not the rich people. But the hard working CLASS.

You are sending one message. GIVE ME ALL YOUR MONEY. does that sound like something a robber would say?

Because thats how it feels Tina.

As a Democrat registered citizen,,,I hang my head in shame for you Tina. Good day. And thank you for your time.
