Committee: Joint Interim Committee On Transportation  
Funding

Measure, Appointment or  
Topic: LC 2

I'm a Viet Nam War veteran, senior on social security, and lifetime resident of Oregon for 75 years.

I'm against all the proposed tax and fee increases because they are regressive. They will cause financial harm to those who can least afford them.

We were led to believe that Democrats were for the poor and middle-income working families, yet these increases will hurt many who are already suffering!

Please seek alternative methods to balance the books. Oregon doesn't have a revenue problem; Oregon has a spending problem.

Please concur with me and Vote NO on these proposed tax/fee increases.
