

Submitter:	Terry Williams
On Behalf Of:	Self
Committee:	Joint Interim Committee On Transportation Funding
Measure, Appointment or Topic:	LC 2

I am a disabled person; I rely on SSDI and a small pension for my retirement. I have no other form of income. I drive myself to several doctor appointments a month, to see friends and do errands. I already have cut back on driving due to gas tax. Now paying for registration and DEQ are always difficult on my budget. Raising the taxes and fees on these listed items alone will be more of a burden than I can afford.

My sister lives on SSDI only and she helps drive her grandchildren when needed. She can afford the taxes and fees less than I!

Oregon is the 5th highest in payroll taxes already! How much does our governor expect us to give out of our already taxed to death incomes?

As a voter and citizen of Oregon, I must say I'm not happy with our governor's policies or choices. It seems she's not concerned about her own people's lives as she is about taxation and raising fees!

I will be signing any impeachment petitions moving to send her on her way. We Oregonians love our State. We are usually willing to go pretty far to protect our surroundings, keep peace and security, as well as treating our elected officials with respect and dignity. However these things only go so far when those elected begin to take less action doing right things.

As an upstanding member of our great state, it is my expectation that my governing officials show proof that what I pay in taxes is being used correctly. My taxes that I pay for, fairly, must be used to keep the peace on the streets and in our homes. Oregon's crime rate is not looking good nor meeting the people's expectations! Payroll taxes are already too high.

This lack of governance forces me to focus on what kind of changes I need to make in order to enforce the system rules to be met fairly.

For these reasons and more, I will sign any legislation, including impeachment, to get our great state back on track. I love where I live; I'll not just move away to another state running away! If our governor prefers a political fight, I'm not the only citizen willing to oblige her. Respectfully, do your job and work for the people not yourself!
