I am submitting my objection to your "improved" transportation tax and fees package. California is losing many businesses and residents for their taxes and maybe that is your goal for Oregon, if so, I submit that you will reach that goal should this package pass, since Democrats are basically in charge of all that goes on in the legislature. I love the beauty of Oregon and have lived here the majority of my life (I'm 82) but my son, who moved to Idaho last year, is encouraging me and my husband to come join them. I don't want to but am seriously now considering it. I know I'm not the only one to object to this proposed package and ask that you tighten the states budget, get rid of waste, maybe you'll find enough money to quit expecting the citizens to fund your projects.
