"On behalf of the many retired Oregonians who live on a fixed income these planned tax increases grossly burdens our ability to maintain our way of living. The percentage of increases listed in this plan will burden us beyond our means to pay for housing, gas & groceries. It's time ODOT removes waste inside their departments to keep Oregon affordable. Retirees deserve reductions in Property Taxes as well. Many of us are considering moving out of state over this. NO increases or lose us altogether!"
