Measure, Appointment or LC 2
Topic:

No one in Oregon want more taxes raised fuel expenses & higher registration fee
In the form of more taxation you must stop forcing policies that destroy Oregon & it's
people

We are extremely disappointed in the reduction in actual representation

We are tired of politicians & policy's that continue to degrade our once great state.

Oregon operates on a budget 3 to 4 times higher than compared metro areas &
states

At some point your government needs to realize that they are the problem

Citizens are fed up with failing schools failing legislation & very poor representation

Your policies are destroying the entire state.
