To whom it may concern,
PLEASE, NO MORE TAXES!

As a 3 generation family, the impact of more financial responsibility will be greatly felt. Seniors on a fixed income, working parents juggling the cost of raising their families, young adults just getting started who cannot afford to move from home and contribute to the economy.

I know a common sense budget can be accomplished with current tax income, just like the families you serve must budget.

If we cannot afford to support the rest of the economy, Oregon may lose more tax income from those businesses and we cannot continue to fill that void.

Thank you for your time,

K. Koopman
