The government in the state of Oregon has mismanaged funds from many sources of state income. There has been no accountability from our governor for her and past governors spending habits. The citizens of Oregon have been taxed beyond our means and NOW Kotex is wanting to raise taxes on everything she can possibly think of. I'm sure she is trying to figure out how to tax the air we breathe and the rays we receive from the sun and moon. Her actions have to be stopped. People are unable to provide for their families, pay the ridiculous taxes and are losing their homes due to this overspending. Seniors are being penalized. We are losing more and more businesses from our state, taking large sources of supporting incomes away from Oregon and its citizens.

Where is all the monies that were received from taxes, lottery, etc? No answers from Kotex.

Where is our money??

Oregon does not need more projects for enhancing Portland and Salem. Dollars for bridge work, who knows where it is. Quit spending on "luxury" for homeless and illegals. Our dollars are wasted on these projects

Kotex says Oregon needs more money, well she needs to quit giving money to her losing projects and give it to the citizens of Oregon. Where is our kicker money she stole?

Small towns are suffering and dying out. It's no wonder half of this state doesn't want to be in Oregon.

Please vote no on the governors proposed tax hikes and help get our state healthy once again

Thank you
