As a United States Citizen and living in Oregon, I am opposed to the tax and fee increases Gov Kotek is aiming to push through. Oregon is suffering from poor leadership that destroys the lives of hardworking Oregonians. Gov Kotek along with the legislators have been committing Maladminstration against the will of the people for decades. Gov Kotek puts domestic terrorists, Antifa and illegals before citizens of the United States. The people of Oregon never granted authority to pass sanctions, mandates, fees, unconstitutional actions against the people. Gov Kotek wants to charge and illegal fee for people of Oregon to tie inner tubes together on waterways. Absolutely insane. Gov Kotek wants to increase vehicle registration fees. Yet there are thousands of unregistered vehicles littering thousands of public streets turned into filthy homeless camps. The forests and public lands that Oregon citizens pay fees and taxes on, have been overtaken with filthy homeless camps. The homeless camp free, while law abiding hard working citizens pay campground fees after they already pay state and federal taxes. Gov Kotek took an oath to uphold both the state and federal constitutions. It goes without saying Gov Kotek and the democrat and republican parties have broke their oats to office. They are public servants. They represent the people of Oregon and need to be held accountable for crimes against the people.
