Topic: LC 2

I am very much against adding any new taxes and registration fees to our current DMV and gas.

When will Oregon understand that it's citizens are tired of paying for kickbacks and handouts.

We have been shown again and again that giving the state of Oregon more money just means that more money disappears.

I no longer believe that are state elected officials are legally elected and I pray that Mail in Ballots will be abolished. Until they are i am choosing to no longer partake in filling the states pockets to pass it to your friends.

Again I am absolutely against adding or raising any fees and or taxes until spending and accountability are addressed.
