Committee: Joint Interim Committee On Transportation
Funding

Measure, Appointment or
Topic: LC 2

Transportation systems for the whole state of Oregon is vital - thank you for doing this important work that the previous group of legislators FAILED to do! The grandstanding of employee layoffs is tiring and old. Direct ODOT to manage the funds and projects that are priority (not a deer overpass and re-re-re doing curbs) and most important STOP raising taxes on those folks trying to make a living. The governor is going to mess around and lose federal funding for our state - recommendations on how NOT to add to the bleeding should be done with this weekend fun fest!

Respectfully submitted
