Topic: LC 2

As a taxpaying citizen of Oregon I strongly oppose any tax increases and fee hikes to cover an already ballooned budget. ODOT along with most state organizations spend money like it grows on trees.

As a resident I am paying entirely to many taxes and fees for everything imaginable This state is sitting amongst the top ten in taxation and will be number one soon.

It is high time that we start living within our means. Our legislators continuously sell us down the river so I expect that will happen this time too. Just remember that we are watching and the next election is just around the corner. You work for us so do the right thing. I urge you to find a solution that will fix the situation with no taxes or fees.

Respectfully,

Art Dickens
