No new taxes and fees to fund ODOT. There is enough money in their budget to keep the people working and safe in rural Oregon. ODOT should be funding roads and maintenance. The people in Oregon should not have to be paying more money out to fund all the extra pet projects. All that more taxes and fees are doing is making tax payers in Oregon go bankrupt and have to leave this state. ODOT needs to stick to a budget. By the way, where did all the money go that they overspend previously that the taxpayers bailed them out? Apparently all that the state of Oregon ODOT learned was to keep going over budget and force the citizens to pay for it. No to any new taxes and fees to fund ODOT. Keep the rural families employed and safe within a budget.
