This is an outrage, we are being taxed to death. Odot has plenty of moneys, already! You all are not managing the money right. We work hard for our moneys! Barely making it already. You want to step in and take more from us. This an out right over reach of government. Tax, tax, tax, when does it end? It's not our fault the you the government cannot manage the money we already pay in taxes! You don't need more from us, you just need better managing skills. My vote is no on your tax grab. No More Taxes!
