| Measure, Appointment or<br>Topic: | LC 2   |

Our death taxes and business taxes are driving away investment in Oregon, and the transportation taxes will make the rest of us suffer while the well off go elsewhere. It is time to reorganize and restructure ODOT to maintain the safety of our roads and bridges instead of squandering resources on non-basic projects. Please do not subject us to more taxes. We already have enough people living in tents because they can't make ends meet..
