If this gas tax happens, I will either need to file bankruptcy or never be able to see or be involved with my children's lives due to the excessive costs which will be added to every gallon, every totem shipped to local stores or purchased and shipped, in addition to downstream increases on everything else.

WE ARE BEING TAXED TO DEATH

Do not pass this tax!!! Or any others! You do not represent ME, a 5th generation Oregonian, when you pass more taxes and spend it all on administrative DEI costs. You represent globalists bent on destroying this great nation.
