This is ridiculous and should not be passed. All these hard working people can barley afford to pay rent buy groceries and pay their bills as it is and now you people who have plenty of money wanna tax us hard working citizens more who can already not afford to live pay more money is outrageous why not tax the billionaires instead of low to middle class people this is why we have so many homeless because no one can afford anything and why we have people over the age of 70 still having to work because they can't afford not to people if the age 65 and over should be able to retire and live out the rest of their life comfortably. GET RID OF TINA ALREADY she is poison
