Funding

Measure, Appointment or
Topic: LC 2

O.D.O.T needs to work and live within a budget. The government needs to facilitate that by allowing them flexibility to use the resources given to them to fund BASIC maintenance operations. We cannot keep adding fees and taxes every time there is a cost overrun .they need to be held accountable for the monies they receive. All of Oregon Government needs to show the people of Oregon That they can lead within innovation and hard choices rather than Breaking into the bank every time things get unpleasant
