Topic: LC 2

Please defeat this transportation bill. It is harmful on so many levels. My husband and I are on fixed income and we just do not have the ability to pay more? I'm sure we are not the only ones. Why do I have to try and move to another affordable place when the state could do better in tightening the purse strings. The governor is acting like a dictator for sure. Please take into consideration the people and NOT making government larger at our expense which we cannot afford.
