Committee: Joint Interim Committee On Transportation
Funding

Measure, Appointment or
Topic: LC 2

I am writing to implore this committee to put this nonsense to bed! Throwing money at this won't solve the problem. The first step needs to be a thorough audit to determine next steps. Going straight to placing the burden of mismanagement on tax paying Oregonians is unacceptable! I and many, many people that I know are already struggling with the cost of gas, food, housing, utilities, the list can go on and on. Most of us simply cannot afford to pay more than we already are! Vote NO.
