Funding

Measure, Appointment or
Topic: LC 2

I live in Grants Pass and we are deeply concerned about the Transportation Tax bill. As retired people trying to live on mostly Social Security, we are already stretched financially. Adding more taxes will probably break our ability to live in this state. Our DOT needs to find a way to live within its means without adding to our misery by continuing to add more taxes to its coffers. If current ODOT management can't find another way to do their job within the existing budget, you need to consider changing ODOT management.
