

Submitter:	Gary Jones
On Behalf Of:	My Family
Committee:	Joint Interim Committee On Transportation Funding
Measure, Appointment or Topic:	LC 2

As a native Oregonian I continue to be completely disappointed and discouraged by the steady stream of bad ideas supported by the Governor and the democrat dominated legislature. This legislation coming up in special session to raise gas taxes and to increase fees should absolutely not be passed. It will be another added burden on the people of Oregon. The Governor and the democrats need to start thinking more about the people they supposedly serve and less about grasping for more money and power. I feel totally disenfranchised and unrepresented as a voter in this state. If this keeps going my family may not be able to afford living in this state. Don't pass this legislation.
