Topic: LC 2

No. Just NO! YOU need to use the resources you have now and maybe run the state like a business, not a personal money pot to jack taxes and "fees" and whatever else you can think of from the citizens! Too many folks on fixed incomes that can't add more and I see them every day! Tina Kotek is stomping her feet because she didn't get her way! ODOT has moneybit they spend it on stupid stuff like bridges to nowhere (Lapine) and I know they have money they blow at year end so they can replace stuff with more taxes and fees... former employees tell me stories! So suck it up and vote Nonono!
