I am very concerned about this transportation tax bill. Oregon has proven it is unable to maintain budgets, manage projects to budget or to schedule, set priorities that benefit the State (and not a select few), and provide clear guidance and leadership to Oregonians overall. The answer it appears, is overrun everything, blame everyone else for these overruns and then increase taxes. I am very much looking forward to the significant changes that will occur in this state and the opportunity to vote in a new Governor, this latest tax increase will help both of those be accomplished.
