On Behalf Of:

Committee: Joint Interim Committee On Transportation
Funding

Measure, Appointment or Topic: LC 2

To the Governor and all State Senators and Representatives,
I am writing in strong opposition to the massive tax and fee increases of the proposed transportation package. Not only will this put a large strain on my monthly budget, but I also oppose any new or increase of existing taxes and fees until such a time that all wasted taxes and fraud in government expenditures is put to an end. Quite funding pet projects and take care of the money you take from us and you will find you have plenty to take care of the very few things that the government should be involved with. DO NOT pass this transportation package!!!

Respectfully,
Robert Stewart
