Topic: LC 2

Taxation without representation is unlawful and destroys our confidence in Governor appointed committees who do not take into account what the people of this state desire. I am a senior citizen living on a fixed income and these taxes and fees are hurting people like myself and also young struggling families. My granddaughter and her husband have to move to a different rental next month because they cannot afford a two bedroom, one bath, apartment with their young daughter with their hourly jobs. They are both working, but every bill in their household continues to rise.

Those choosing to shoulder retired people and hard working couples will have no problem with these increases. They are already financially set. But the rest of us trying to live are being burdened on a large scale and it is criminal. PLEASE do not pass these taxes and fees.
