Topic: LC 2

Please stop taking more money from us. Our government already wastes so much of the people's hard earned money. Please focus on creating efficient government for the people then developing reasons to tax and spend. I have lived in Oregon my entire life and love the state and the people here. I am so sad to see the direction our leadership has taken over the last half century. Much of this has been done contrary to the voter wishes. Passing this bill is just another example of the reality that our leadership does not care about the wishes of the people. If you really respect our wishes this would be put in the ballot for us to decide.

Respectfully,

Phil Garrett
