Topic:

1. We are squeezed every which way already. I might be for the increases you want, if we were getting excellent service for the fees and taxes already in place.
2. As taxpayers we are witnessing sloppy, expensive errors and terrible service from ODOT and the DMV. I see one expensive error everytime I see the ""overpass to nowhere", you know, the one sinking along Hwy 97 near La Pine. That is a perfect example of incompetence with our tax \$.
3. The DMV website is cumbersome to try and navigate. I went in person to the DMV office to drop off my registration and check. The clerk refused to take my paperwork and told me to mail it to Salem. I received my tags more than 2 weeks later. No wonder people avoid the DMV. Terrible service!
