Committee on Transportation,

As a hard working Oregonian, I am begging you to oppose any legislation that includes raising taxes/fees. Oregonians can't afford to pay any more than we already are. I implore you to think of the citizens that you represent and what this will do to our ability to survive. We already have an overwhelming homeless population and increasing the cost of living will only cause it to go up. Oregonians are begging for you to save us.

Thank you,

Natalie Gilless
